

MINUTES OF CASE COMMITTEE MEETING
HELD TUESDAY, FEB. 18, 1964

Present: Mr. Schein
Mr. Osborne
Mr. Cooper

Miss Voigt
Mrs. Casey
Miss Dickson

At the meeting of the Case Committee, they discussed the plan for study of drug addiction and at the present time Mrs. Fawcett is completing the outline for the study and will present it to Mr. Meyers prior to March 16th.

The committee also discussed Dr. Leontine Young's report "Action Project on the Prevention of Family Disorganization". At the present time it has not been submitted to the proper authorities for consideration of a grant. However, Family Service Bureau has commented on it and felt it was a project our agency could fully cooperate in.

The F.S.A.A. report on Casework Practice was discussed by the committee and it was suggestion in relationship to this that a list of the number of cases that are presently paying fees as against those that are not paying fees should be made.

The Case Committee also explored how the Belleville operations would fit into the present set-up of Family Service Bureau and how we would be able to differentiate between Belleville and Newark Cases. Mrs. Casey will prepare this for the next meeting of the Case Committee.

Mr. Schein, chairman of the Case Committee, observed at the present time the Family Service Bureau seems to be serving very few elderly persons and wondered whether or not this agency could offer more to this age group.

The committee also discussed the project Family Service Bureau is undertaking with F.S.A.A. on marriage problems. The staff has been working on this for sometime now and Phase 1 and 2 have almost been completed. A great deal of information has been forthcoming from it and when completed will prove extremely valuable to the agency.

Edward V. Kilduff
